Lullaby Program Launched January 1, 2008

As of January 1, 2008, Windsor Regional Hospital will celebrate each new birth by playing 20 seconds of Brahms' Lullaby over the hospital's public address system at both Campuses. It will serve as a reminder to all that the miracle of birth happens everyday in our facility. "We all know how special it is when a baby is born, so we would like to share that with everyone," said David Musyj, President and CEO. "This reminder of new life and the exciting moment for a family will allow all of us to share in the joy, even if only for a moment."

Music Creates a 'Healing Environment'

Windsor Regional Hospital is pleased to announce the addition of a music program for staff, patients and visitors. Music provides a healing environment—one that we strive to achieve. Plans are underway to extend the program to other locations in the future. For more information on this program, contact Public Affairs at ext. 52005.
