## MINISTER ANNOUNCES FUNDING FOR MEN'S HEALTH PROGRAM

The Hon. Teresa Piruzza, MPP, Windsor West, Minister of Child and Youth Services and Women's Issues held a media conference on March 7 announcing multi-year funding to support a Regional Comprehensive Men's Health Program at Windsor Regional Hospital.

The Regional Comprehensive Men's Health Program will result in earlier detection of prostate cancer, decrease wait times if prostate cancer is diagnosed, reduce wait times to effective treatment options, help attract and retain the best clinical leaders in the world, and begin to repatriate cases back to Windsor and Essex County, allowing residents to get cancer care closer to home.

The new program will provide a one-stop-shop for men suffering urological disorders, bring together, Urologists, Radiologists, Oncologists, Pathologists, and Surgeons under one program at Windsor Regional Hospital, Met Campus. The program will be modeled after the successful Women's Breast Health Centre and Lung Diagnostic & Assessment Program.

"This is a game changer for our region where, back in 2009, as a team, we had a vision to create a Regional Comprehensive Men's Health Program," stated David Musyj. "After the government made a promise to operationally fund the program and the Windsor Essex Cancer Centre Foundation initiated 'It's In Your Jeans' capital campaign to fund the Da Vinci Surgical Robot System, we now have Teresa Piruzza to thank for fulfilling the promise!"

## MET CAMPUS TIM HORTONS ON THE MOVE!

The Board of Directors approved the relocation of the Tim Hortons at the Met Campus where it will be relocated to the Met cafeteria across from Subway. Hoarding has gone up and it is estimated the work will take approximately 8 weeks to complete.

The current Tim Hortons in the front lobby is consistently congested due to the fact that at one time there were two locations and now only one is handling the volume of clients and staff.

One day she hopes to WALK IN HIS SHOES and receive an ORGAN DONATION too.

## KAIDYN'S DREAM...a WALK for LIFE

Sat., April 12th, 2014 at 9:00 am

Walk/Run/Cycle/Wheel

Green Mile or Half Marathon

## THE CHILL ON THE OUTSIDE BRINGS WARMTH TO THE INSIDE

A generous donation of 50 toques by Rare Society owners Kyle Brown and Jake Corrent brought smiles to Windsor Regional Hospital's Cancer Program Supportive Care Staff and Volunteers. Kyle and Jake recently started this unique local urban street wear company, determined to do more than just sell clothes. They're also community-minded and want to help promote our region and residents to the world through their "Rare Society Project". "Our tagline is The Resilient and the Relentless" said Jake. "We believe this tagline is something that cancer patients can associate themselves with and be proud to wear given the circumstances some have been faced with, yet fight to overcome."

Staff member Susan Marino later shared that several male patients have told her how grateful they were. "It was wonderful to see our patients get so excited about receiving such a gift. They couldn't believe they were free! A majority of our hats are quite feminine; and to be able to offer such good quality, well made toques for our male patients is wonderful. Thank you so much Kyle and Jake for your generosity!"

### DID YOU KNOW?

The French word "trier", the origin of the word "triage", was originally applied to a process of sorting, probably around 1792, by Baron Dominique Jean Larrey, Surgeon in Chief to Napoleon's Imperial Guard.
