## CLARA'S BIG RIDE ROLLS INTO WINDSOR

Clara Hughes rolled into Windsor on March 17th with the wind on her back and an enthusiastic speech on mental health. The six-time Olympic medallist spoke to nearly 300 people gathered at the Ciociaro Club as part of Clara's Big Ride for Bell's "Let's Talk" campaign. She delighted those in attendance with personal stories of her past struggles with depression and how she overcame those challenges. Sharing this experience with others has become the next competitive challenge for the renowned Canadian athlete, who won medals in both speed skating and cycling and stands as the only Canadian to win medals at both the Winter and Summer Games competitions.

The stop in Windsor was about 414 kilometres into a 11,572 kilometre journey. "This is another stop in another awesome Canadian city that is showing support for mental health," Hughes told the crowd. Hospital board member Anthony Paniccia presented Clara with a white WRH windbreaker embroidered with the phrase "Compassion is Our Passion," which Clara said would make a great item to wear while cycling through Canada.

Clara posed for a group photo with more than a dozen kids at the end of her presentation and also signed various items that will be used for fundraising purposes by WRH and other event sponsors, including the Canadian Mental Health Association, Greater Essex County District School Board, Loaring Physiotherapy and Hôtel-Dieu Grace Healthcare.

Supporting local mental health initiatives by community groups, schools and other local organizations in every province and territory, Clara's 110-day journey around Canada by bicycle began March 14, spans 12,000 kilometers and will see her visit 95 Canadian communities, concluding in Ottawa on Canada Day, July 1. For more information, please visit [Bell.ca/ClarasBigRide](http://Bell.ca/ClarasBigRide).

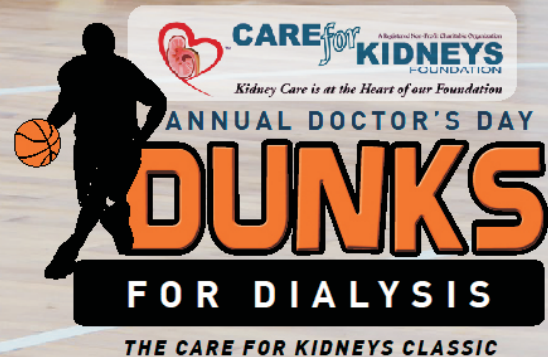

## NEW PROCESS FOR DIAGNOSTIC IMAGING APPOINTMENTS AT OUELLETTE CAMPUS

Effective March 17, 2014, the process for patients entering the Ouellette Campus for diagnostic examinations has been streamlined to improve the patient experience.

Previously, patients coming into the Goyeau Lobby for DI exams had to first, stop at the Admitting Desk before proceeding to the DI Waiting Room.

Under the new process, patients can go directly to the DI Department, reducing one extra step for the patient and their family. "It improves the patient experience and also assists to streamline patient flow," stated Jane Millar, DI Coordinator, Support Services.

### SUNDAY, MARCH 30, 2014

Catholic Central High School  
2:00pm - 5:00pm

## DOCTORS VS. MED STUDENTS

Help us show our appreciation for our local doctors and help support them in raising money for a great cause!

## NEW RETAIL PHARMACY AT OUELLETTE

A new retail pharmacy is opening at the Ouellette campus - one that will provide great service for patients as well as employees, volunteers and professional staff.

The WE Care Pharmacy is located in the Goyeau lobby, next to the entrance to Diagnostic Imaging. Operated by John Payne, an 11-year Pharmacist, the WRH-run outlet will emphasize fast, friendly and efficient service, with a goal of getting prescriptions in customer hands within 5-10 minutes. Also since the Pharmacy is owned by the hospital, all profit will be reinvested within the health system.

"At the end of the day, retail pharmacy is all about what you do above and beyond filling a prescription that makes the difference," says Payne, who recently joined WRH after nine years at St. John Hospital and Medical Center in Detroit. "WE Care Pharmacy is really going to be patient focused."

The WE Care Pharmacy will be open 9 am to 5 pm from Monday to Friday. Service will be available starting March 31st but be sure to drop by for the Grand Opening on April 10th!

## EXPLORING THE FUTURE OF HEALTHCARE IN SUDBURY, ONTARIO

When Health Sciences North opened in Sudbury, Ontario, recruitment got a whole lot easier. In the latest video blog WRH's Allison Johnson takes us there to find out what it is about the new facility that has so many physicians packing up and heading north. Visit [www.windsorhospitals.ca](http://www.windsorhospitals.ca) to check it out.

Windsor Regional Hospital Cancer Program Nursing Students at the University of Windsor's Student Health Fair talked to over 200 students about Cervical Cancer Screening and Breast Cancer Prevention.

COMPASSION is our  
**PASSION**

## DID YOU KNOW?

In 1957, Canada's first pre-paid drug plan was established in Windsor-Essex County. Today it is called Green Shield Canada.

## Ovarian Cancer & You

Increase Your Knowledge... Connect With Your Community

Women with ovarian cancer and their family members are invited to an exciting day of education and empowerment. Health care providers also welcome.

### Topics include:

- current research
- support for women
- ovarian cancer overview
- survivor panel

With opportunities for networking and sharing.

**Date:** Sunday, March 30, 2014
