"You are never too old to set another goal or to dream a new dream."  
~ C. S. Lewis

JUNE 2ND, 2014

VOLUME 2 EDITION 22

Special thank you to the Detroit Tiger Alumni, our generous sponsors and volunteers for supporting our 25th annual Golf Tournament for Windsor Regional Hospital at Essex Golf & Country Club

A mask and eye protection are required to protect the mucous membranes of the nose and mouth from anticipated sprays and splashes of blood, body fluids, secretions, excretions or coughing individuals.

Airborne particles can remain suspended in the air, travel on air currents, and then be inhaled by others. This is why rooms with special ventilation are required, and any therapy provided must occur in this room with the doors closed.

N95 respirator failure is primarily related to poor fit and leakage around the face seal. Always perform a seal check before entering an airborne infection isolation room.

FROM **MONDAY JUNE 2ND UNTIL MONDAY JUNE 16TH**  
WE WILL BE HOLDING A FOOD DRIVE FOR  
THE DOWNTOWN MISSION.

DROP OFF BINS ARE LOCATED AT THE WELCOME DESKS  
AT BOTH MET AND OUELLETTE CAMPUSES.

## Fill 'er up!

Please support your local food bank

## BIG NIGHT FOR GINA!

The Big Night Gala was a big night for WRH's own Gina Bulcke. Gina was the winner of the 2014 Award of Appreciation for Commitment and Service to Mental Health, presented at the Big Night Gala at the Ciociaro Club on April 25th.

This award is presented to a medical professional within our community who has made a positive impact on mental health that went above and beyond the expectations; making mental health a top priority and making awareness in the community of the importance of our brain health; and continuing to strive for more awareness about the continuous needs financially and medically through program support systems in our hospitals and in our community.

Gina said she was deeply honored to receive this award and most especially to receive the award from Dr. Leonardo Cortese, renowned expert in the field of brain health, whom she worked closely with at the Tayfour Campus.

Gina is currently Director of Organizational Effectiveness and Decision Support at WRH.

**Effective immediately** Windsor Regional Hospital - Telecommunications Department is pleased to announce the implementation of Inter Facility five (5) Digit dialing between WRH Met, Ouellette Campuses and Hôtel-Dieu Grace Healthcare Tayfour Campus.

Staff are no longer required to dial an outside line in order to reach an extension between these three sites.

Since realignment Windsor Regional Hospital and Hôtel-Dieu Grace Healthcare have been working with their phone carrier to:

- have a common external phone contact for patients, families and staff that make contacting anyone at any campus easy and seamless
- allowing internal communication easier

There were many stages and upgrades that needed to happen to make the above occur. Early this summer we will complete this process to improve phone access to Windsor Hospitals.

## RAISING AWARENESS ABOUT STROKE RISKS, DEMENTIA

June is Stroke Awareness Month – and Windsor Regional Hospital staff are supporting several initiatives aimed at raising community awareness and understanding of how to prevent strokes.

This year, the Ontario Stroke Network is partnering with the Alzheimer's Society of Ontario for stroke month, with the focus on Stroke and Dementia.

Not everyone knows that almost one in three Ontarians will develop stroke, dementia, or both," says Denise St. Louis, Interim District Stroke Coordinator at the WRH Ouellette Campus.

On June 24th from 1 pm to 2 pm, a videoconference presentation in the Ouellette campus boardroom and Meeting Room #1 at the Met Campus will discuss the issues of stroke and dementia. The presentation by Dr. Sandra Black of Sunnybrook Hospital is intended for front-line clinical care providers and professional practice leaders.

Also, on June 17th, the Ouellette campus will hold its monthly blood-pressure clinic for staff and visitors. If you are looking for a fun time to support awareness, please join your colleagues at the Heart and Stroke Big Bike event on Friday, June 6th at the Bull and Barrel, located just down the street from the Ouellette campus at 670 Ouellette Ave. Proceeds go to the Heart and Stroke Foundation. If you are interested in participating, please contact Denise St. Louis, Interim District Stroke Coordinator at ext. 33770.

COMPASSION is our **PASSION**

The Met Campus of Windsor Regional Hospital is in South Walkerville - one of Windsor's oldest residential developments. it is bordered by Walker Road to the east, Tecumseh Road to the North, Howard Ave. to the West and the CPR line to the South. Many of its streets are named after World War I battles such as Alsace, Ypres, Somme and Amiens.
