@WRHospital

Smile - It's almost time for National Nursing Week (May 7-13)

In celebration of the work of all our nurses throughout our organization, Windsor Regional Hospital is bringing a "Magic Mirror" to each Campus where, you can pose with your colleagues for fun photos!

The concept is a full-length mirror that captures your image as well as some fun graphics. It's been a big hit recently at weddings, fundraisers and other functions.

The photos will be NO CHARGE and are available to all employees, as well as Professional Staff and Volunteers!

The Mirror will be available during the afternoon and late night in order to allow more staff to try it. Look for it at the following times and locations:

- Monday, May 7, 2018 - Ouellette Campus (Mezzanine)
2 p.m. - 4 p.m. / 11 p.m. - 1 a.m.

- Tuesday, May 8, 2018 - Met Campus (1st Floor, East Wing)
2 p.m. - 4 p.m. / 11 p.m. - 1 a.m.

Also for Nurses Week:

- Remember to submit your "What Nursing Means to Me" message. We will publish some of the best responses and choose a winning \$100 gift card to The Keg Steakhouse for each Campus! Click on the 'HAPPY NURSES' WEEK' button from our Intranet home page and click on the "What Does Nursing Mean to Me?" to access the form, or you can just email your submission to steve.erwin@wrh.on.ca
- This year's nursing awards, held in coordination with our partners at Hôtel-Dieu Grace Healthcare, will be held in the Ouellette campus cafeteria at 10:30 am on Wednesday, May 9th. Come by, applaud your colleagues and enjoy some refreshments!
- A reminder that the annual local ONA dinner will be held on May 10, 2018 at 6:00 pm at the Fogolar Furlan Club. There will be door prizes and the cost is \$20. You can log on to Eventbrite and search ONA Local 8 to register.

Beach Grove Golf & Country Club
14134 Riverside Drive East, Windsor

OCT 25 **Do Good Divas Gala**
Caboto Club of Windsor
2175 Parent Avenue, Windsor

According to a recent review of literature, taking steps to facilitate vaccination increases uptake; trying to change beliefs does not. Behavioral interventions such as reminders, prompts, making default appointments and using standing orders lead to higher rates of vaccinations.

Country In The County

Thanks to the Dan Gemus Real Estate Team, the 2nd Country at Heart party took place on April 14 at Sprucewood Estate Winery attracting up to 200 folks in support of a number of charities, including Windsor Regional Hospital Foundation and Fight Like Mason Foundation.

The evening included a reception, country style barbeque buffet and the sounds of Adam Butcher and Ashley Lynn & The Spurs. The raffle was a highlight where 125 balloons were sold with a number for special prizes that included a wheelbarrow of fun (libations), spa packages and gift baskets.

The Dan Gemus Real Estate Team is proud to have provided funds to completely refurbish the Intensive Care Unit Family Waiting Lounge at the Met Campus.

Aiden Pitre: A Hero to Paediatric Services

Aiden is a Grade 8 student at St. John Vianney School in Windsor and wanted to give back to a program that helped him when he was 9 years old. He had to spend a month in Paediatric Services in 2014 due to becoming very ill suddenly. Aiden experienced a successful outcome and decided to 'pay it forward'.

"Paediatric staff did so many things for me to help through the rough days. I was confined to my room; however, Child Life staff provided an opportunity to select a new toy or game that I could bring home, something I never forgot" said Aiden. "I was amazed to hear that the community donated items throughout the year to make kids like me experience the same feeling."

Aiden and his Grade 8 Confirmation Class at St. John Vianney gathered new toys, books, portable DVD players, Playstation 3, Xbox 360 and WiiU games, along with a large assortment of craft items, totaling almost \$5000 in value. Tecumseh Fire Services assisted by becoming a drop-off centre on behalf of the project. The community was so supportive that, \$1700 in cash was donated as well which will go toward a specific piece of medical equipment required.

Photo above: Aiden, his family and some of this classmates delivering the many items to Paediatric Services recently.

#RECIPEOFTHEWEEK

Asparagus & New Potato Frattata

Makes 3 servings

Preparation: 10 min

Cooking Time: 12 min

INGREDIENTS

- 1 cup new potatoes, quartered
- 3/4 cup asparagus tips
- 1 tbsp olive oil
- 1 onion, finely chopped
- 6 eggs, beaten
- 1/2 cup cheddar, grated
- Arugula or mixed leaves, to serve

DIRECTIONS

Heat the broiler to high. Put the potatoes in a pan of cold salted water and bring to the boil. Once boiling, cook for 4-5 mins until nearly tender, then add the asparagus for a final 1 min. Drain. Meanwhile, heat the oil in an ovenproof frying pan and add the onion. Cook for about 8 mins until softened. Mix the eggs with half the cheese and season well. Pour over the onion in the pan, then scatter over the asparagus and potatoes. Top with the remaining cheese and put under the broiler for 5 mins or until golden and cooked through. Cut into wedges and serve from the pan with salad.

Improving the Patient Journey: A Celebration of Milestones

Last week, staff and visitors at the Ouellette Campus were invited to a celebration in the cafeteria to recognize the improvements SOP project team members are making for WRH patients.

Staff presented highlights from three major SOP projects: Standard Unit, Quality Based Procedures, and Medicine Patient Flow. They discussed how these projects are helping to reduce wait times, reduce patient harm and improve communication between patients, families and care providers. All of this work is strengthening the patient care process and workflow that will eventually guide the design of a new acute care hospital.

"We have 1700 people who have worked so hard to get these results and I have to tell you, these results are amazing," said Chief Operating Officer and Chief Nursing Executive, Karen McCullough. "It takes dedication, it takes leadership and it takes all of you to say it matters and I am going to make a difference for our patients."

McCullough says after three years, the results are impressive and the good news is, we are not done yet.

Anyone who would like to learn more about how to get involved in the SOP project is encouraged to email future@wrh.on.ca to find out more about being part of this continuing journey.

Volunteer Appreciation Day 2018

Regional HIS Transformation Project

Better systems. Better care.

What is the Regional HIS Transformation Project?

The five hospitals in the Erie St. Clair (ESC) region currently all operate their own hospital information systems (HIS). This project is about implementing a single, common HIS across the region so we are equipped with state-of-the-art technology to deliver high-quality, safe care to our patients.

Across Erie St. Clair, we are now collectively ready to work together and make this new system a reality

Why are we doing this and why now?

Collectively, our technology is out-of-date and modern HIS solutions are key enablers to delivering safer, higher-quality care. This ESC clinical transformation will enable a one patient-one record strategy for the region, and create an all-around better experience for patients and staff alike. A regional approach to HIS is not only rooted in leading practice, but is also aligned with the mandate recently released by the provincial government which encourages hospitals to partner together and create shared HIS solutions - our Regional HIS Transformation Project is part of the vision for a more collaborative, coordinated, and connected health system across the province.

When is this happening and what is my role?

Efforts to set this project's foundation have commenced, and it is clear this is going to be a multi-year journey. Effort required will vary by role and everyone will have the opportunity to provide input in the coming months and beyond.

0 to 6 months
Develop a better understanding of the project and its benefits

6 to 12 months
Participate in focus groups, surveys, and/or design sessions to share your ideas

>12 months
Join departmental working groups, participate in validation, and/or continue providing ad hoc feedback

Frequently Asked Questions (FAQ)

How will this impact my job?
The new system will change how some of us do our work, but comprehensive training efforts will be provided to ensure we are ready and prepared to hit the ground running

When will I see changes to the systems in my hospital?
The first hospital go-live is expected to take place in Spring/Summer 2019, with the rest of the hospitals going live between then and the end of 2021

Who do I contact if I have more questions?
If you have any questions or comments, please send them to HISinfo@transformssco.ca
