Goals Of Care

Windsor Regional Hospital is introducing a new concept in patient care called "Goals of Care!" Every patient has different wants, needs, and values; therefore, the hospital is implementing a new way for patients to receive the appropriate type of care which they require.

Upon introducing Goals of Care, it is a new process which places the patients needs first! Goals of Care standardizes the process for documentation of the patient's values, wishes, and goals in the context of medically appropriate treatment in advanced-care planning. This can involve specific health interventions, transfer decisions, locations of care, and limitations on interventions for a patient as established after consultation with the Most Responsible Health Professional and the patient.

Goals of Care is the best plan used to accommodate patients, providing resources for patients and their families to engage in advance care planning as early as possible in a patient's course of care and/or treatment. A designation order form by the patient will be attached to their medical record and will be applied each time after they attend the hospital. This order will be reviewed on a regular basis and be available to the patient to review and change within certain limits. If somehow a patient is not able to communicate their treatment needs, it will be communicated through a selected substitute decision maker.

This is another example of Windsor Regional Hospital providing Outstanding Care – No Exceptions!

Measles is still common in other countries in Europe, Asia, the Pacific, and Africa and the Americas. Make sure your vaccinations are up-to-date before travelling!

New Acute Stroke Clinic Opens

Windsor Regional Hospital opened a new 16-bed Acute Stroke Unit on the 8th Floor West of the Ouellette Campus on April 3 and made an announcement to the public in a media event on April 6th. With this program being established, it concentrates all Windsor-Essex stroke patients in a dedicated unit providing specialized care toward better patient outcomes.

The new stroke unit is staffed by an inter-professional stroke team with a specialized interest in stroke care, including nurses, physiotherapists, occupational therapists and speech language pathologists.

"Rather than having patients dispersed throughout the region, this unit allows us to concentrate our local stroke care expertise on one floor, on one unit, to realize better patient outcomes," said Denis St. Louis, Coordinator, Windsor-Essex District Stroke Centre.

Windsor Regional Hospital is the District Stroke Centre in Windsor-Essex and provides leadership, development, implementation and integration of stroke care for residents throughout their Erie-St. Clair Local Health Integration Network, and includes all points of the spectrum of stroke care from promotion and primary and secondary prevention, to acute care, rehabilitation and home care.

"Research has shown that patients admitted to a dedicated stroke unit have better survival rates and reduced lengths of stay in hospital," stated Dr. Michael Winger. "We know that specialized care in dedicated units improves the ability of the patient to return home with regained independence."

"The Windsor Regional Hospital District Stroke Program believes that the citizens of Windsor-Essex deserve and have a right to access of a specialized Acute Stroke Unit with an aim to create a collaborative stroke strategy with a team that is committed to ongoing improvements in stroke care," said Janice Dawson, Vice President, Critical Care, Cardiology and District Stroke.

Switchboard Announcement

On May 1, 2017 Windsor Regional Hospital will consolidate to one central switchboard. The switchboard will be located at the Met Campus and will service all Windsor Regional Hospital sites. This will assist in making telecommunications more efficient and safer for patients. Centralized switchboards are common in Ontario Hospitals and Health Sciences Centres serving much larger populations and diverse sites.

Remember, It is important to dial Ext. 3333 for all Emergency Codes. By dialing 3333 your call will be answered immediately. If you dial "0" for an Emergency Code, your call is placed into a queue delaying the response.

Also, you can reach the Nuance Voice Activated Calling System by dialing Ext. 56660 to be connected to staff and departments. If you discover a name or Department that does not work well in the nuance system, contact ext. 52410 to have this recorded again.

To facilitate the work of the switchboard and to aid in internal communication, remember to be sure that your complete signature (with contact information) appears on all emails including those on your phone. Visit the Intranet for instructions on how to update your signature. This will avoid unnecessary calls to switchboard.

VENDORS ON DISPLAY

(APRIL 10 - APRIL 14, 2017)

MET CAMPUS: Sweet Occasion Chocolates, Home Instead, Janet Fashions, Dianas Gifts, Just Jewellery, Glad Renaud

OUELLETTE CAMPUS: Dianas Gifts, Little Red Door, Funky Living

Safety Spotlight Presents...

Meet Sandra,

Sandra is a worker representative on the Met Joint Health & Safety Committee (JHSC), representing the OPSEU membership, and works in the Nuclear Medicine department. Sandra has spent 2 of her 15 year employment with WRH on the JHSC and employees being involved in helping with employee concerns.

If Sandra were to win the lottery, she would buy her dream cottage in the Muskokas, and her motto is "Be positive, complaining doesn't achieve results".

Thank you Sandra for your time and dedication to the JHSC!

Sandra

<+> HACKING HEALTH

WINDSOR + DETROIT III

MAY 5-7, 2017

WINDSOR

DETROIT

TECHTOWN DETROIT 440 BURROUGHS STREET, DETROIT MI

WANTED:

DESIGNERS	TRANSFORM EVERYDAY HEALTHCARE CHALLENGES INTO REAL SOLUTIONS
DEVELOPERS	CONNECT TO CREATE HOLISTIC SOLUTIONS WITH PATIENTS, NOT JUST FOR PATIENTS
HEALTHCARE PRACTITIONERS	CONTRIBUTE TO IMPACTFUL HEALTHCARE CHALLENGES AND IMPROVE THE EXPERIENCE
COACHES & MENTORS	OFFER YOUR IDEAS AND CONCEPTS TO HELP CATALYZE INNOVATION IN HEALTHCARE

Hacking Health Windsor-Detroit breaks down barriers to healthcare innovation by bringing together IT and healthcare professionals across the US-Canada border to collaborate, dream up & design apps for patient-centric care.

Building on the success of the first ever cross-border Hacking Health held at TechTown Detroit in 2015 and the University of Windsor in 2016, Hacking Health Windsor-Detroit III will be returning to **TechTown Detroit May 5-7, 2017**.

Recipe
of the Week

Roasted Pepper Spinach And Feta Flatbreads

Makes 4 servings
Preparation: 15 min
Cook Time: 8 min

INGREDIENTS

- 1 cup (250 mL) unsalted cooked or rinsed canned chickpeas
- 1 1/2 cups (375 mL) baby spinach leaves, divided
- 1 small clove garlic
- 2 tbsp (25 mL) freshly squeezed lemon juice
- 1 tbsp (15 mL) tahini or other nut or seed butter
- Pepper
- 1 roasted sweet red pepper (about 3/4 cup/175 mL strips)
- 4 6- to 8-inch (15 to 20 cm) whole wheat pita breads
- 4 oz (120 g) lower fat feta cheese, crumbled or 3 1/2 oz (100 g) regular feta cheese, crumbled

DIRECTIONS

Preheat oven to 400°F (200°C). In a food processor, combine chickpeas, 1 cup (250 mL) of the spinach, garlic, lemon juice and tahini. Process until fairly smooth, adding 1 to 2 tsp (5 to 10 mL) water, if necessary, to make a spreadable hummus. Season to taste with pepper. Pat roasted red pepper strips dry. Arrange pita breads on a large baking sheet or 2 sheets, as necessary. Spread with hummus, dividing equally. Arrange strips of roasted red pepper on top; sprinkle evenly with cheese. Bake for about 8 minutes or until pitas are toasted and toppings are hot. Remove pitas from oven and sprinkle with remaining spinach.
