## Stay up to date on Accreditation News!

Accreditation season is shifting into higher gear and our Accreditation team is making sure you have all the information you need!

We are currently in "Phase 2" of our Accreditation timeline. Work is well underway in addressing the accreditation standards that need improvement based on our self-assessments. This month, we've begun to provide education to employees about Accreditation and how Windsor Regional Hospital meets various standards. Also, over 70 frontline staff have volunteered to be "Accreditation Ambassadors," sharing news, facts and providing education for co-workers on how we meet standards in each department.

In order to ensure you are kept up to date with the process, please remember to check your Windsor Regional Hospital email for our bi-weekly newsletter. The first one was sent out on August 3rd. Also, don't forget to take part in our bi-weekly quizzes which are sent out in conjunction with the newsletter!

You can also check out our Accreditation page which includes FAQs, timelines and Accreditation Canada Survey facts. You can get to this page by clicking on the image below or go to the Accreditation 2019 link on the home page of our Intranet.

## LPAT Decision & Hearing Dates

On August 9, 2019, Windsor Regional Hospital (WRH) received a copy of a Decision of the Local Planning Appeal Tribunal (LPAT). It sets the dates of October 8, 9 and 10, 2019, for the oral hearing of the Appeal of the decision of the City of Windsor regarding the County Rd. 42 Secondary Plan. The hearing will be held at Windsor City Hall, Council Chambers, starting at 10 am.

[Click here to view the full decision of the Local Planning Appeal Tribunal \(LPAT\).](#)

The Decision requires the parties to provide "focus" to the issues raised in the appeal and provides timelines for the parties to comply with that "focus" request.

Windsor Regional Hospital is very pleased that dates have been set for the hearing of the appeal and will not be providing any further updates regarding this LPAT matter until after the hearing is held.

## A Tribute to 2019 Human Touch Award Winner Michelle Prince

Staff, volunteers and patients in the Windsor Regional Cancer Centre put their dancing shoes on to recognize and celebrate 2019 Human Touch Award Winner Michelle Prince and her dedication to improving the patient experience.

Prince, who died last year after a 5-year-cancer journey, was recently honoured posthumously with a Human Touch Award from Cancer Care Ontario. These awards are presented annually to recognize exemplary and compassionate patient care.

Today, the Human Touch award was presented to Prince's family along with a special video tribute meant to capture her compassion, positive spirit and love of dance.

The award is a recognition of Prince's contributions to improving the patient experience including:

- Inspiring and supporting the Dr. Michelle Prince Comfort Care Tote Program. The program is a partnership between T2B and the Cancer Centre Foundation that provides high quality tote bags to 1,100+ new chemotherapy patients each year. The tote contains items to engage and comfort patients during chemotherapy and help them manage the side effects.
- Live streaming her 56th chemotherapy treatment on Facebook. More than 25,000 viewers from around the world watched as she talked about the experience and answered their questions in real time.
- Co-chairing the Starry Night fundraiser with her husband Eddie Francis. The event raised more than \$1.5 million for the new Windsor-Essex Hospitals System.

"Michelle continues to touch so many lives and that is what this award is all about," said Monica Staley Liang, Vice President of the Erie St. Clair Regional Cancer Program. "Every patient who enters our program now and into the future will benefit from her dedication and commitment to improving the cancer journey for all."
