New Bed Capacity Protocol Introduced

A new policy has been implemented to facilitate the admission of adult patients held in the Emergency Department awaiting an Acute Care Bed or an inpatient Surgical Bed. The 'Over Capacity' and 'Full Capacity' Protocols will assist in treating patients in a timely fashion and avoid holds in the Emergency Department. Employees and visitors can expect to hear overhead pages with 'alerts' that will assist in managing this new procedure. For more information on this new protocol, please visit the WRH Intranet.

New Photo Kiosk on 2 West

A self service photo kiosk has been installed on 2 West at the Met Campus. Thanks to a new partnership with First Memories and Light Speed Technologies, the kiosk will allow new parents to take and print photos either alone or with family and to send free, unique birth announcements by email to friends and family in English, French and Arabic.
