Blood Challenge

This year's Integrated Laboratory Challenge has begun and will run until April 2009. Staff, family and friends who attend a local Blood Donor Clinic will have the opportunity to vote for their favourite Lab. (Hint: that would be the WRH Lab!). Ask for a form to cast your vote at the registration desk at the Blood Donor Clinic. Last year WRH's Lab won the award for having the highest number of new donors.

Diagnostic Imaging—Next Department to 'Can the Complaining'

Diagnostic Imaging is the next WRH Department to contribute to creating a Complaint Free World. Since February 1st — employees have been wearing their purple bracelets in an effort to support a positive work environment. KUDOS to all! All funds raised through this initiative will support DI development.

WRH implements Horizon Meds Manager

Chatham-Kent Health Alliance (CKHA) and Windsor Regional Hospital (WRH) are implementing a new electronic pharmacy system called Horizon Meds Manager (HMM). HMM is a computerized pharmacy solution that improves workflow and ensures patient safety. It allows the pharmacy to electronically receive, verify and send medication orders, eliminating manual transcription and preventing medication errors. The innovative solution captures medication use across care settings and disciplines, linking all patient encounters in a real-time electronic chart.
