## Tayfour Campus Update

Construction at the Tayfour Campus continues. The plan is to have the Tower Building complete by June 2012 with the Rehabilitation Program moving from Malden Park to the Tower in July. The goal is to have approximately 50 additional Complex Continuing Care beds opening at Malden Park starting in August. An application/request has already been made to the Ministry of Health and Long Term Care requesting operating funding for the additional Rehabilitation beds and Complex Continuing Care beds. Expect some exciting announcements at the Campus over the next few months!

## Parking at the Met Campus

In November 2011, Windsor Regional Hospital made changes to parking at the Met Campus to better accommodate patients and visitors. At this time, Windsor Regional Hospital does not have the financial resources to build a parking garage. Staff are reminded free offsite parking is available to them and unauthorized staff found to be parking in the Visitor's lot will have their vehicle towed and may be subject to discipline. Your cooperation and respect for our patients and their families is appreciated.
