

# SOP UPDATES

Standardization & Optimization Process

July 25, 2014

Hi Everyone,

Our “Opportunity Search” is wrapping up and we are just about ready to move on to the next stage in our process. Right now we are speaking with WRH Directors as we finalize our “Report Out” outlining the road ahead. That will be presented to the hospital Executive Committee and Medical Advisory Committee (MAC) on August 6, 2014 and later to the hospital Board of Directors.

## **MEET ANDREA McINERNEY**

Andrea McInerney, joins the SOP team this week. She is a Lean Consultant with KM&T. Andrea has worked in quality for eight years in both the hospital and primary care sectors with the South West LHIN. She is currently working on her Master’s Degree in Quality Improvement & Safety at the University of Toronto.

Don’t forget to send us your suggestions at [future@wrh.on.ca](mailto:future@wrh.on.ca).

Have a great weekend.

John McKillop, Managing Consultant, KM&T
