The project team at work – placing document legends on the new patient chart tabs!

Get Ready Here they Come!

The new patient chart tabs have arrived! The project team has been busy prepping packages for each of the designated units. Each chart tab will have a document legend to provide staff a reference concerning what forms should be placed in each section and what order the forms should be organized. On March 29th, Surgical In-Patient, Mental Health and select Medicine units will be implementing the new tabs at the Ouellette Campus. On April 5th, Surgical In-Patient and select Medicine units at Met Campus will be receiving their new chart tabs.

Right Referral Form in the Right Place at the Right Time

The Fracture Clinic standard referral form is going into the Ortho OR packages. The reason for the change is to ensure there is enough lead time for the fracture clinic to be able to provide inpatients, who will be having surgery, an appointment prior to them leaving hospital. This represents a substantial improvement in care coordination, and prevents patient confusion and phone tag.

As a secondary benefit this may also ensure physicians have time to write their x-ray orders which will prevent more delay in the fracture clinic.

Standard Unit Rolls Out to the Medicine Programs!

The SOP Surgical In-Patient Standardized Unit project will be transforming to become the Medical and Surgical In-Patient Standardized Unit project. As the team wraps up the priority objectives in the Surgical In-Patient Units, the team will evolve and continue spreading change to the Medicine Unit areas. Medicine will be identifying key front-line team members as project leads and collaborating with the Surgical In-Patient project team over the next few weeks to learn from their experience and successes over the past year!

Alumni Day Celebration!

Last week we informed you about the upcoming Alumni Celebration Day taking place at the Ouellette Campus on April 8th. While a majority of this event is a project management course refresher for Wave 1 Project Team members, there is a one hour celebration open to all WRH employees in the Ouellette SOP Office at 1pm. The celebration will kick off with report outs from current SOP projects, followed by a graduation ceremony for Alumni projects, words from David Musyj, and will finish with cake for all attendees. We look forward to seeing you there!

Have a great weekend!!

The SOP Team
