Strategic Direction #3 – Maintain a Responsive and Sustainable Corporate Financial Strategy

Motivated by personal experiences with heart and lung health concerns, members of two Collavino families have made a \$1-million gift toward the Fancsy Family Hospital to support vital equipment and technologies needed at the future acute care facility.

The Collavino Family Cardio-Pulmonary Diagnostic Lab at the Fancsy Family Hospital will commemorate their generous contribution to the new hospital.

In addition to ongoing needs at Windsor Regional Hospital, Windsor Regional Foundation is raising funds to support equipment and technology at the Fancsy Family Hospital. The campaign for the Fancsy Family Hospital will be largest fundraising campaign in the history of the Windsor-Essex region. Support from families like the Collavinos and other generous donors will be critical to ensuring that the new hospital has state-of-the-art equipment and technology.

Strategic Direction #3 – Maintain a Responsive and Sustainable Corporate Financial Strategy

The 17th Annual Hats on for Healthcare, presented by Greg Monforton & Partners, is taking place March 1st to March 31st, 2026. Hats On For Healthcare is now in its 17th year and has raised more than \$700,000 for programs and services at Windsor Regional Hospital.

This year, you get to decide what program your donations go to -Hats On teams can choose from 40 different programs.

Go to this link for all the details and to register [Hats on for Healthcare 2026](#)

Strategic Direction #5 – Enhance an equitable workplace culture that establishes WRH as an employer of choice

Volunteers are an integral part of the Windsor Regional Hospital team!

With a mission to provide support, comfort and assistance to patients, families and staff, our enthusiastic and devoted volunteers contribute hundreds of hours each month serving many departments across our hospital campuses

This month we highlighted Nicole Belanger-Smith who has been volunteering at WRH since 2019. She is a retired nurse and enjoys working with the staff, other volunteers and students, while helping patients and their families.

A special thank you to Nicole and all of our volunteers for their commitment to WRH and the community we serve.

Strategic Direction # 6- Design and Deliver a New State of the Art Acute Care Facility with the Community for our Region

Following last month's announcement of a phased delivery approach for the Fancsy Family Hospital Project, the redevelopment team has been focused on two key priorities: getting shovels in the ground for Phase 1 – The Enabling Works, and ensuring the tendering documents for Phases 2 and 3 support a seamless connection between these builds.

The phased approach to building the new hospital was selected to increase market participation and price competition, while relieving pressure on labour, materials and trade availability, and mitigating procurement risks.

A Request For Qualifications (RFQ) for subcontractors to start construction closed in late January, and a short list of qualified bidders has been invited to participate in the Request For Proposals (RFP) process which is actively underway.

For more information on the project including the full PMO report for this month go to [Windsor Regional Hospital - About the Project](#)
