

# COMMUNITY MESSAGES

Much love to each and everyone effected by this within the Community , the patients, and the amazing healthcare workers 🙌

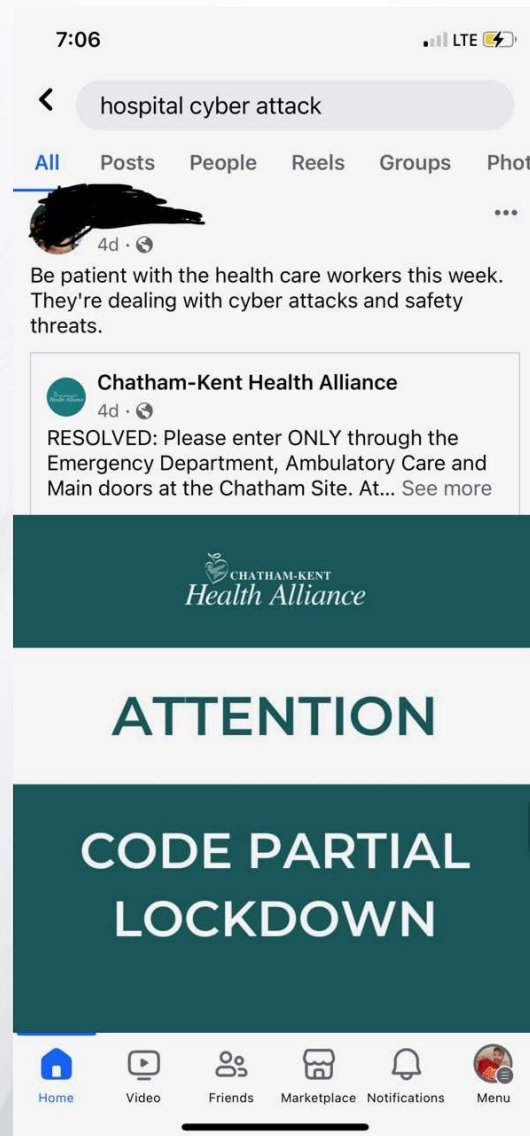

I usually like to keep my socials free of any negativity, so I'm going to keep this as positive as possible.

Recently 5 hospitals in our area were victims of a cyber attack (Greenshield too).

It's a sad thing when something like a hospital is the target for someone struggling so bad they would go after the sick, injured and elderly, all for personal gain or to make some kind of statement (or who knows what really).

Thank you to the men and women in health care right now that are fighting to give appropriate care to the loved ones in our life. You are the real superheroes of our reality.

# COMMUNITY MESSAGES

An absolute shout out to the staff at the hospitals right now. Currently, my great grandma is at Oulette campus on 2 north and, especially with the current computer outages, the staff have been nothing but fantastic, especially her nurse today Alex D. Thank you to everyone that continues to go above and beyond for their care. Our family is so grateful ❤️

Had my second hip replacement surgery yesterday!  
Sending sincere thanks to the entire team at the Met campus. You all were AMAZING! Your job is a very difficult one and that was only made tougher with the computer breach. No one complained as they did evrything by hand and redid all the forms. All of this was done with smiles on your faces and compassion in your hearts.  
From reception, to the surgical team, to recovery and physio it was a wonderful experience  
A huge THANK YOU from the bottom of my heart. Please keep doing what you are doing because you make a difference.  
Thank you again.
