PLANNING A SAFE RETURN TO OFFICE

WITH MEDCAN'S
**DR. JASON
ABRAMS**

Join Dr. Abrams, Associate Medical Director from Medcan, as he discusses COVID-19 projections, expected workplace guidelines and other considerations as we all move towards a safe office return this Fall and more permanent hybrid workforces in early 2022.

Dr. Abrams is the Associate Medical Director and a Senior Medical Consultant at the Medcan Clinic in Toronto, Ontario. He is a graduate of the Schulich School of Medicine & Dentistry at Western University in Ontario, and he completed a residency in family medicine at McGill University.

Over the years, he has completed locums in family medicine and emergency medicine in the Greater Toronto area and has practiced in walk-in clinics in the community. Additionally, he has been an Independent Medical Examiner for Section 44 assessments under the Statutory Accident Benefits Schedule, and a low back expert physician examiner for the Workplace Safety and Insurance Board (WSIB) as part of an initiative to focus treatment and implement safe return to work for employees who have injured their backs.

His professional interests include preventive medicine, occupational medicine, and virtual medicine.

The presentation will cover:

Eventbrite

- What are the COVID-19 Projections for Q4 of 2021?
- What are the expected workplace guidelines for Q4 of 2021?
- What are the trends/employee needs related to mental wellbeing?
- What else should employers be considering for a more permanent hybrid approach in January 2022?
